PROFESSIONAL SUMMARY

Fullstack Developer with 3+ years of experience shipping web and mobile products end-to-end, from requirements and UI design to backend, database and Play Store release. Built 10+ production client products at a software house, including the official city scouts Android app used by **20,000+ users** and a website with **37,000+ views**. Co-founder of a software studio, Bangkit Academy (Google, GoTo, Traveloka) graduate, and national-level competition winner in AI-powered EdTech.

WORK EXPERIENCE

Fullstack Developer **Jul 2025 – Nov 2026**
Sulung Media Solusindo – PT Mega Data Media Solusindo *Semarang, Indonesia*

- Designed, built and shipped **10+ client products** across native Android, Next.js and PHP/MySQL stacks, owning the full lifecycle from requirements gathering and UI to REST API, database, deployment and Play Store release.
- Developed **Hallo Semarang**, the official app of Pramuka Kota Semarang (Kotlin, Firebase), now used by **20,000+ users** to manage membership and scouting activities.
- Built **Diggie School**, a Next.js PWA e-learning platform unifying classes, materials, assignments, attendance and grades, plus a companion Android course app supporting 3 user roles in one app.
- Delivered the official **Kwarcab Kota Semarang** website (Next.js, PHP, MySQL) reaching **37,000+ views**, its digital magazine platform, and a village disaster-preparedness self-assessment system (Desa Tangguh Bencana).
- Built a field-technician reporting Android app for ISP PT Mega Artha Lintas Data and a class-management app for LPKS Borneo Flasher (Kotlin, PHP, MySQL).

Co-founder & Software Engineer **Feb 2023 – Dec 2024**
SynKode *Indonesia*

- Co-founded a software studio delivering websites and mobile apps for multiple clients, handling requirements, development and client communication.

Software Developer **Jul 2023 – Nov 2023**
Wangkal Priority *Indonesia*

- Built a Windows Forms app integrating the Zebra printer SDK (C#) to automate barcode label printing for production.

Mobile Development Cohort **Sep 2024 – Dec 2024**
Bangkit Academy 2024 (led by Google, GoTo, Traveloka) *Remote*

- Built **SkyBound**, a generative-AI career recommendation Android app (Kotlin, Firebase) with personalized roadmaps, courses and quizzes as the capstone project.

Hacker Front End Mentee **Aug 2024 – Sep 2024**
Digistar Class 2024 – Telkom Indonesia *Remote*

- Rebuilt the LOGEE multi-step registration flow with OTP verification in Next.js and Tailwind CSS from a production design.

SELECTED PROJECTS & AWARDS

- **Easy Score** – AI essay-scoring app with quizzes and automatic feedback (Flutter, Firebase). **2nd Place, DIMAS-TI 2024** (national).
- **Brain Essay** – AI essay assessment app for teachers and students (Flutter, Firebase). **National Finalist, LIDM 2024**.
- **Proposalify** – Student-to-lecturer proposal workflow with admin approval and role dashboards (Next.js, Express.js, MongoDB).
